

PostNord Pallet Services and PostNord Groupage

This delivery service reaches companies and private customers across Sweden, Norway, Finland, and the rest of Europe - fast, easy, and secure. Within the Nordics, deliveries are handled entirely through our own network, except in Denmark where a trusted last-mile partner is used.

Every shipment is tracked all the way to the recipient, and you can add extra services to tailor the delivery to specific needs. Using just one carrier in Sweden, Norway, and Finland for all your volumes makes the process simple, cost-effective, and reduces administration.

Deliveries take place every weekday, with arrival no later than 6 pm - making it easy to plan and giving your customers the reliable service they expect.
