Clearance at Destination

Maximum content value: **USD2,500**

De minimis: **AUD 1,000**

GST: **10%**

Duty: **Variable based on product. Applicable on orders over AUD 1,000.**

Manifests are electronically transmitted to customs prior to arrival.

Australia has strict rules surrounding biohazards and controlling disease, anything that is identified as a bio risk (animal products, leather, wood, fur etc.) will require an AQIS inspection prior to release. Charges incurred for such AQIS inspections are passed back to the shippers.

Goods exceeding AUD 1,000 in value will require formal clearance, GST and duty payment, current GST rate is 10% and duty is variable based on commodity. Duties and GST are passed back to shipper for DDP shipments on a parcel-by-parcel basis.

Since the 1st July 2018, any International retailer /e-tailer selling over AUD 100,000 worth of goods per year in Australia must register and get an ABN number in order to pay the GST (10% of the value of the goods from the first \$).

Weight and dimensions

Maximum Parcel Weight: 20kg.

Minimum Parcel Dimensions: Must be able to hold a 16 cm x 11 cm label.

Maximum Parcel Dimensions: $(W+H) * 2 < 140$ cm Length < 100 cm.

Dimension Factor: Dim Weight is $L \times W \times H$ divided by 139.

i Shipping weight is the total package weight (Product + Packing).

Shipment charges are based on either the actual* or volumetric weight**, whichever is the greater.

*Actual weight, or dead weight, is the physical weight, in kg or lb, including the outer packaging of the shipment.

**Volumetric weight, or dimensional weight, is the cubic measurement, in m^3 , of the outer carton multiplied by a conversion factor of 139.

***Cubic ratio is the volumetric weight divided by the actual weight.
