Duty and tax de minimis

Tax de minimis: 0 EUR

Duty de minimis: 150 EUR

Applied CIF value of the order

De minimis value

Duty and tax will be charged only on imports into France where the total CIF value of the import exceeds France's minimum value threshold (de minimis), which is a duty de minimis of 150 EUR and a tax de minimis of 0 EUR. Anything under the duty de minimis value will be a duty-free import, but because the tax de minimis is zero, every import is subject to tax.

Import tax

Standard rate: 20%

Applied to the CIF value of the order

Value-added tax (VAT)

Import VAT is charged on the CIF value of the order at a standard rate of 20%. However, medicine is reduced by a 2.1% rate, food and agricultural products by 5.5%, and some services by 10%. The EU introduced Import One-Stop Shop (IOSS) as its method for collecting VAT in July 2021.

Import duty

Average: 4.2%

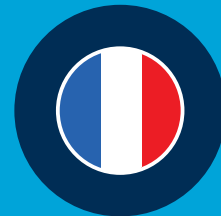

Rate range: 0-17%

Applied to the CIF value of the order

Import Control System 2 (ICS2)

ICS2 is a cargo information system aimed to screen shipments for security and safety prior to their arrival into or across the European Union as well as the United Kingdom. You need to ensure that you are providing the carriers with good (not vague) package descriptions when you're shipping a package to the EU and UK.
