Clearance at Destination

Duty and tax de minimis

Duty de minimis: **135 GBP**

Tax de minimis: **0 GBP**

Based on the CIF value of the order

De minimis value:

Duty and tax will be charged only on imports into the UK where the total CIF value of the import exceeds the UK's minimum value threshold (de minimis), which is a duty de minimis of 135 GBP and a tax de minimis of 0 GBP. Anything under the duty de minimis value will be a duty-free import, but because the tax de minimis is zero, every import is subject to tax.

Import tax:

Standard rate: **20%**

Reduced rate: **5%**

Applied to the CIF value of the order

Value-added tax (VAT)

A VAT of 20% is applied to all imports into the UK, and it is applied according to the order's CIF value. Certain goods, such as children's car seats and home energy receive a reduced VAT rate of 5%.

Import duty:

Rates vary (usually below 10%)

Applied to the CIF value of an order

Duty charges:

Duty is only charged on goods with a CIF value greater than 135 GBP.

Excise duty:

Excise duty is charged a set price on alcohol on a strength and per litre basis. Tobacco products are charged a set duty on a gram and packet basis.

Import Control System 2 (ICS2):

ICS2 is a cargo information system aimed to screen shipments for security and safety prior to their arrival into or across the European Union as well as the United Kingdom. You need to ensure that you are providing the carriers with good (not vague) package descriptions when you're shipping a package to the EU and UK.
